The ACA notice posted below dated 06/18/13 indicates in Question 12 that for dates of service January 1, 2013 through February 19, 2013, rates for E&M services will reimburse at the Medicare rate applicable to the non-facility setting. During the systematic adjust process that occurred on the RA of 07/17/13, claims with these dates of service were incorrectly adjusted to the facility rate. The online ACA Fee Schedule for dates January 1, 2013 through February 19, 2013 also indicates the facility rate instead of the non-facility rate.

A second systematic adjustment of these incorrectly paid claims (service dates January 1st through February 19th) will occur within the next few weeks and the fee schedule will be corrected. Please continue to review the RA messages and web notices as you will be notified when this second recycle occurs. We apologize for any inconvenience this has caused.

Scheduled Claims Recycle for Primary Care Services with Affordable Care Act Enhanced Rates

DHH has authorized a special check write scheduled for Wednesday, July 17, 2013, in order to address prior paid claims for specified primary care services rendered by Designated Providers which are eligible for an enhanced rate as required by the Affordable Care Act (ACA). As CMS approved our methodology on June 6, 2013, the ACA enhanced rates were added to the claims processing system on June 17, 2013 and eligible Designated Providers began to see higher payment of these services beginning with the June 25, 2013 check write. The new check write will address claims for dates of service January 1 through June 16, 2013 which were processed before we implemented the enhanced rates into our processing system. EFTs will be released on Thursday, July 18.

Only claims paid under legacy Medicaid or Bayou Health Shared Savings plans (Community Health Solutions of America and United Healthcare) will be affected. DHH requires approval from CMS regarding the methodology to reimburse enhanced rates for the Prepaid Plans.

Physicians whose Designated Physician form was processed and approved by Molina Provider Enrollment prior to June 17, 2013 will be included in the recycle and systematic adjustment of claims. Advanced Practice Registered Nurses eligible for enhanced rate payment will be processed at a later date.

Additionally, providers should review any claims on this check write which deny due to the patient having third-party liability (TPL). They will need to submit the claim to the other insurance first and then submit an adjustment to Molina afterwards in order to receive the enhanced rate, if applicable.

For more information related to the ACA enhanced rates and affected providers, please see "ATTENTION PRIMARY CARE PROVIDERS: Affordable Care Act Primary Care Services Enhanced Reimbursement Information" posted to www.lamedicaid.com on June 16, 2013.

AAP: Pediatric Musculoskeletal Course | 7/19-21/13 | Cincinnati, OH

Brought to you by the leadership of the AAP Orthopaedic Section, Rheumatology Section, and Sports Medicine and Fitness Council.

This course is targeted to the pediatrician and other child health professionals who want to gain expertise and confidence in the diagnosis and management of common musculoskeletal conditions.

Attendees will not only learn from the collective expertise of authorities in these three disciplines, but also the collective benefit of different teaching formats. No conference would be complete without podium lectures, but with musculoskeletal topics, expect some interesting videos and "mechanisms of injury." However, the teaching is not limited to faculty alone- attendees will definitely learn from each other and from themselves. Yes, the popular and highly-rated "hands on" small group seminars for joint examination are back, along with case-based discussions between faculty and attendees.

The faculty line-up includes practitioners from around the country who are recognized both as accomplished clinicians and educators in the field of musculoskeletal medicine. The line-up of topics has been carefully selected to address common concerns elicited in the office and provide practical points to help with evaluation, management, and directing appropriate and timely referrals when necessary.
