Governor Jindal releases 2013-2014 Executive Budget

On February 22, 2013, the Joint Legislative Committee on the Budget met to hear the first of many presentations on the Executive Budget. Prior to the beginning of the legislative session, the Commissioner of Administration is constitutionally obligated to present the Executive Budget to the Joint Legislative Committee on the Budget. At the meeting, the Commissioner presented a \$24.7 billion Executive Budget for fiscal year (FY) 2014, appx. \$1 billion less than last year's budget. The budget relies on restructuring state government, sales of property (\$45.5) million and \$424 million of one-time funding.

At this time, there are no cuts directly to Medicaid provider reimbursements.

The DHH budget has a state general fund reduction of \$54 million from last year. Much of the DHH budget discussion centered on the public/private partnerships and the status of the Memoranda of Understanding. The Commissioner testified that 90% of LSU employees will be retained with the private hospitals and that hospitals will receive \$191 million more in funding than anticipated.

DHH's plan includes moving Children with Special Health Care Needs under the umbrella of Bayou Health as well as realigning Medicaid eligibility for pregnant women by reducing eligibility beginning Jan. 1, 2014 for pregnant women with incomes above 133% FPL as they will be expected to receive coverage through the Federal Exchange.

Provider Calls

The weekly provider call hosted by DHH continues and now also includes representation from PRISM. The teleconference takes place every Wednesday at noon. Any provider is welcome to call in, and pre-registration is not required.

The call in number is 1-888-278-0296

Access code is 6556479#

This has been a helpful venue for providers and hospitals to explore solutions to their concerns or specific issues they are experiencing. On the calls, DHH has consistently reminded participants to use the online complaint form (<https://bhsfweb.dhh.louisiana.gov/BayouHealthComplaints>) The form will require the entry of contact information, the nature of the complaint, if you have dealt with the plan on the issue, the history of those dealings, and other information. Participants are strongly encouraged to follow the Provider Issue Escalation and Resolution format outlined in Informaitonal Bulletin 12-27

(http://new.dhh.louisiana.gov/assets/docs/BayouHealth/Informational_Bulletins/IB12-27.pdf)

Announcements from CHS-LA

Prior Authorization Discontinued For Radiological Utilization for Community Health Solutions

Effective January 1, 2013, the Louisiana Department of Health and Hospitals discontinued the requirement of prior authorization for radiological utilization for legacy Medicaid. CHS-LA will no longer require prior authorization for these services effective February 1, 2013. However, CHS will continue to regularly monitor provider utilization of these services in order to ensure compliance with evidence based guidelines pertinent to clinical practice. CHS-LA reserves the right to reinstate prior authorization for these services should utilization patterns indicate the need. [Click here](#) for the DHH Bulletin.

[Click here](#) for more information on CHS-LA Referrals and Authorizations.

System Reconfiguration

CHS is anticipating a system reconfiguration by the end of February, 2013 in order to process claims sent via Paper for Voids and Adjustments. CHS estimates the current backlog of paper void and adjustment claims to be re-processed and sent to Molina by March 7, 2013. If an Adjustment and Void is being submitted via a CMS 1500 paper claim form, the 213 Professional Adjustment/Void Form is still required. UB-04 paper claim forms do not need the 213 Form attached since there are fields for this information on the UB 04 claims. However, electronically submitted CMS 1500 claims and UB 04 claims for Adjustments and Voids are processing successfully. This is the method of filing CHS recommends. If your office needs assistance with the process of submitting these electronically, please contact the CHS-LA EDI Help Desk: Phone: (855) 229-0258 Email: edihelpdesk@chsamerica.com
If you have any questions, please feel free to call CHS Member Provider Services at (855) 247-5248, your La. Provider Services Representative or our CHS-LA state office at (888) 982-4752.

Changes to Referral Form

The following change was made on the second page of the form to reflect the recent decision to discontinue the requirement of prior authorization for diagnostic imaging studies. ([click here](#) for view/ download the most current referral form)

Referrals are NOT REQUIRED in the following situations:

- Access to women's health specialists for routine and preventive women's healthcare services and prenatal care
- Laboratory services
- Diagnostic Imaging studies
- Low level (Level 1 and Level 2) Emergency Room visits
- Urgent Care Clinic visits

If you have any questions, please call CHS Member Provider Services at (855) 247-2878, your La. Provider Services Representative or our CHS-LA state office at (888) 982-4752.

Giving Immunizations During Well-Child Visits? Don't Get Denied Payment

On January 1, 2013 the Centers for Medicare and Medicaid Services (CMS) released the latest version of the National Correct Coding Initiative (NCCI) edits. The NCCI edits are code edits published by both Medicaid and Medicare to support correct coding and claims adjudication. Included in the new Medicaid and Medicare edits were edits on all evaluation and management (E/M) services that disallow patient with immunization administration codes without the proper modifier. The modifier indicator for all these edits is a "1," meaning that with proper modifier placement, the edit can be overridden.

On February 1, CMS made a decision to allow state Medicaid programs to deactivate this edit at state option, retroactive to January 1, 2013. On February 7, 2013 the AAP sent a [letter to HHS Secretary Kathleen Sebelius](#) requesting that emergency action be taken to mitigate the damage to the pediatric immunization system created by a recent CMS coding decision.

On a national level, the Academy is urgently working with National Correct Coding Solutions - the CMS contractor for NCCI edits - to have the edits suspended on all preventive medicine service codes (99381-99385 and 99391-99395) with all immunization administration codes (90460 and 90461, 90471-90474).

At a state level, the Louisiana Chapter has been in communication with DHH urging them to deactivate the edits. Currently, the Louisiana Department of Health and Hospitals has agreed to not implementing the edits which also means that the shared savings plans in Bayou Health (Community Health Solutions and United Healthcare) will not be requiring the use of the modifier. The Department has allowed each of the pre-paid plans to make their own decision. At this time, LaCare has implemented the edit and providers who do not use the modifier are not being paid. Amerigroup is in the process of activating the edit. Louisiana Healthcare Connections put an override in place so the modifier will not be required.

The Chapter is reaching out to the healthplans to urge the suspension of the edit requiring the use of the 25 modifier when administering immunizations in connection with preventive medicine codes as the AAP works on a national level with CMS to have this edit removed from the NCCI list.

PRISM Update: Provider Re-Enrollment and Training Sessions

The following letter is being sent to providers beginning on February 28, 2013 related to provider re-enrollment. ALL Medicaid providers will need to complete re-enrollment through the PRISM system.

Re-Enrollment Begins February 28, 2013

Dear Medicaid Provider:

In November, your office received a letter from the Louisiana Department of Health and Hospitals (DHH) about the new claims processing system DHH is implementing for Louisiana Medicaid. The new system, called PRISM (Provider Recipient Integrated System for Medicaid), is scheduled to totally replace the existing Medicaid claims system operated by Molina in fall 2014.

Provider enrollment is the first part of PRISM that will be implemented. Beginning February 28, 2013, all Louisiana Medicaid Provider Enrollment activity (new enrollments, changes, re-enrollment of all existing providers) will be performed by our contractors CNSI and Noridian Administrative Services. To comply with Medicaid provider enrollment requirements of the federal Affordable Care Act (ACA) and to receive Medicaid reimbursement after the 2014 transition to claims payments through PRISM, all currently enrolled providers must re-enroll in Louisiana Medicaid through the PRISM Portal by December 31, 2013.

Over the next several months, your office will be receiving two enrollment letters containing all of the necessary information for your office to begin the re-enrollment process into Louisiana Medicaid. These letters will be mailed separately for security purposes. The first letter will contain your National Provider Identifier (NPI) number (if applicable), PRISM Domain and User Name. The second letter will contain your temporary password. Only Billing Providers will receive these letters. If you are a Servicing Only Provider, it will be the responsibility of the entity that is billing for your services to re-enroll you.

The enrollment letters will be sent in phases, by provider types. Below are targeted dates when you can expect to receive these two letters:

- * Billing Agents/Clearinghouses – March
- * Facilities, Agencies, Organizations, and Institutions – March
- * Groups – March
- * Individual Practitioners – April
- * All Other Providers - May

During the re-enrollment process, please review your existing information to confirm it is accurate. Once your reenrollment process is complete, your NPI, PRISM Domain, User Name, and Password will be utilized to maintain your provider files going forward. Please retain this information and keep it in a safe place for future reference.

Re-enrollment is critical to your continued participation in the Louisiana Medicaid program. Please notify your staff, particularly those involved in claims processing, that provider re-enrollment begins February 28th, 2013. For updates about the Medicaid re-enrollment process, PRISM training, PRISM FAQs and access to the PRISM Provider Portal, go to <http://www.medicaid.la.gov/PRISM>. Upcoming training sessions are posted on this website on the right-hand side of the page in the Training Information section, including live webinars and self-paced, online sessions which you can complete at your convenience. Completion of PRISM training is not required to re-enroll but it is available and encouraged.

If changes are required to your provider file prior to re-enrolling online, a change request in writing will be required. Change request forms are available at <http://www.medicaid.la.gov/PRISM>. Change requests by paper or reenrollment by paper could significantly delay provider application processing. Online re-enrollment is strongly recommended.

Providers may be required to enter their taxonomy code(s) to complete the enrollment process. Please see information below regarding taxonomy codes. Effective February 28th, 2013, please call the PRISM Provider Enrollment Unit at 1-888-780-7858 if you have questions about re-enrollment or if you need assistance logging into the PRISM Provider Portal. Thank you for your participation in the Louisiana Medicaid Program.

PRISM Provider Enrollment Team
PO Box 91108
Baton Rouge, LA 70821-9108
Phone: 1-888-780-7858

Important information you will need about Taxonomy Codes for provider re-enrollment:

What is Taxonomy?

Taxonomy is a 10-character alphanumeric code used to identify provider type and area of specialization for health care providers. Taxonomy codes are administered at the federal level by Health and Human Services (HHS) at <http://www.hhs.gov>. For example, 208D00000X is the taxonomy code for a General Practice Physician.

Why do I need to know what taxonomy is?

Taxonomy is important to know because the PRISM claims system will be replacing the "Provider Type/Specialty/Subspecialty" currently used by the Molina MMIS claims system in claims processing with a taxonomy code that identifies the type of service you will be providing. Many medical insurance companies currently use taxonomy codes in claims payments.

Where may I obtain descriptions for taxonomy codes?

A complete list of taxonomy codes and descriptions are located at The Washington Publishing Company at <http://www.wpc-edi.com/taxonomy>. This list is updated twice per year.

How do I know which taxonomy code to use during PRISM enrollment into the Louisiana Medicaid program?

During PRISM online enrollment, enrolling providers will choose a provider type and specialty. The PRISM system will display a taxonomy code(s) based on the information you entered. If you cannot enroll online and must enroll using paper, information will be provided in the Provider Enrollment Packets located, accessed through the Providers link on the PRISM website at www.medicaid.la.gov/PRISM, to walk you through your taxonomy choices. Please note that paper changes, paper enrollment could significantly delay payments to providers.

Who do I contact if I have questions about taxonomy?

All taxonomy-related questions should be directed to the PRISM Provider Enrollment Unit using the "Request More Info" button on the right-hand side of the PRISM home page. Please submit your question and a Provider Enrollment specialist will respond to you promptly. Or, effective February 28, 2013, call 1-888-780-7858.

PRISM Training Sessions

Register Online – www.medicaid.la.gov/PRISM

Region 1: March 5, 6, & 8, 2013 (New Orleans area)

Region 9: March 18, 21, & 22, 2013 (Northshore area)

ACA Increased Reimbursement Rates for Primary Care- Act Now

As a primary care provider, you qualify for increased reimbursement as outlined in the ACA. In order to take advantage of this, you will need to complete an attestation form. In order to qualify for increased reimbursement rates retroactive to January 1, 2013, you must complete the attestation by March 31, 2013. If you do not complete your attestation by March 31, 2013, the date your attestation is finalized will be used as your start date for increased reimbursement rates. For more information and details, review the [Informational Bulletin from DHH with Q&A](#)

Southeast Dairy Council Recipe- Cheddar and Mushroom Breakfast Squares

This hearty, country breakfast entrée is good for breakfast, brunch, or on-the-go. Create your own variations by using other vegetables. Pair with a bowl of fruit or favorite toast and jam for a cheesy kick start to your day.

Ease: Moderate
Prep time: 20 minutes
Cook time: 1 hour
Yield: 9 servings

Ingredients:

2 teaspoons butter
2 cups sliced white button mushrooms
1/2 cup sliced green onion, including green tops
6 slices country style bread, cubed
2 cups shredded, reduced-fat Cheddar cheese
2 cups fat-free or low-fat milk
2 cups egg substitute
1 teaspoon red or green hot pepper sauce
1/4 teaspoon salt (optional)

Directions:

- Spray an 8 x 8-inch square glass or ceramic baking dish with cooking spray; set aside.
- In a medium skillet over medium heat, melt butter and add mushrooms. Cook mushrooms about 5 minutes or until softened and brown at edges. Stir in green onion; set aside.
- Place 1/2 of the bread cubes in prepared baking dish. Scatter 1/2 of the mushroom mixture and 1/2 of the cheese over bread cubes. Layer remaining bread cubes and mushroom mixture; set aside.
- In a large bowl, beat milk, egg substitute, pepper sauce and salt, if desired, until well blended. Pour milk mixture over bread cubes and top with the remaining cheese. Make ahead suggestion: cover dish with foil and refrigerate for 8-10 hours before baking.
- Preheat oven to 350 degrees Fahrenheit. Bake, covered for 45 minutes. Remove foil and bake an additional 15 minutes or until top is puffed up and cheese is browned at edges. Let cool for 5 minutes; cut into squares to serve.

Submit resume to dermasurgerycenter@mac.com. Confidentiality assured.

PROGRAM DEVELOPER- Nurse-Family Partnership

Position Description

Imagine using your skills to better the lives of first-time moms and their babies. Nurse-Family Partnership (NFP) is passionate about transforming the lives of families in our communities. Thrive in an energetic and creative atmosphere with other results-oriented professionals. This position requires collaboration with all departments at the Nurse-Family Partnership (NFP) National Service Office to develop new Nurse-Family Partnership program implementations to serve expanding numbers of low-income, first-time mothers and their families.

This position will be located in the Eastern Region and will require working from home with travel across Louisiana and other assigned states in the region and to the NFP National Service Office in Denver, Colorado. The target state for this position is Louisiana, with a preference for candidates that reside in this state. The target state for this position is Louisiana, with a preference for candidates that reside in this state. Final state assignments will be made based on the residency of the candidate selected for the position and are subject to change, based on the needs of the Program Development Department and dynamic conditions in the states.

The employee cultivates and/or assures sustained political and fiscal support for Nurse-Family Partnership through policy action at the state, county, and city level, providing for operational stability and the financial capacity to serve more families over time. The employee also works in collaboration with public and private champions in assigned states, other Nurse-Family Partnership Program Developers, Nurse Consultants (state-based and national), Regional Program Quality Coordinators, and other Nurse-Family Partnership colleagues to foster sustained effectiveness in local Nurse-Family Partnership programs. These activities are accomplished by performing the following listed below. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Essential Duties & Responsibilities:

- Prepares and builds on development plans for assigned states.
- Where appropriate, develops a strategy for developing NFP's programmatic presence in the states, including: geographic priorities; political alliances and champions; challenges or opposing forces; outreach education and awareness strategies; milestones; schedule of activity; resources required to achieve success.
- Executes development strategy and proactively drives the development process with a clear focus on program growth with high commitment and capacity to implement with fidelity to the NFP model.
- Establishes a personal presence throughout the states, traveling during part or all of two to three weeks per month, in order to build and maintain extensive networks among key constituencies.
- Partners with existing champions and stakeholders around strategy, direction, and approach to serving more NFP families in assigned states.
- Collaborates with members of the Nurse-Family Partnership Board of Directors, NFP management, and other individuals as appropriate to assist in promoting the program.
- Maintains current contacts in the NFP contacts management system.
- Keeps NFP internal constituencies informed, especially Nurse Consultants, who share responsibility for supporting local programs.
- Requests support when required from colleagues in departments that include: Marketing and Communications; Policy and Government Affairs; Nursing; Program Quality; Information Technology; and Fund Development.
- Promotes and coordinates activities of agencies, groups, and individuals to meet identified needs.
- Studies and assesses strengths and weaknesses among existing resources.
- Interprets needs, programs, and services to agencies, groups, and individuals involved and provides leadership and assistance.
- Prepares reports and disseminates information.
- Maintains contact with representatives of other organizations to exchange and update information on resources and services available.
- Writes proposals to obtain government or private funding for projects designed to meet the needs of communities.
- Other duties as assigned.

Knowledge, Skills & Experience:

- Bachelor's degree required, Master's Degree in Public Health or related field preferred.
- Two to four years of experience and/or training in service and/or locally-adapted franchising organizations.
- Understanding of the workings of state and local governments and funding agencies is preferred, as is experience with both for-profit and non-profit organizations in multiple states.

Supervisory Responsibilities:

This position reports to the Regional Manager of Program Development and does not have any direct reports.

To learn more about Nurse-Family Partnership, please visit: www.nursefamilypartnership.org.

Interested applicants should submit a cover letter along with a detailed employment history and resume to:

Upcoming Events

Asthma Educational Training for Providers, Nurses & Healthcare Professionals

Sponsored by: LA AAP and DHH Asthma Management and Prevention Program

Objectives: The purpose of this healthcare provider training session is to provide the state's highly qualified healthcare providers, nurses and respiratory therapist with tools as provided by the NAEPP Expert Panel Review-3 Guidelines for managing asthma long term and for managing exacerbations around four essential components of asthma care, namely: assessment and monitoring, patient education, control of factors contributing to asthma severity, and pharmacologic treatment.

The training will provide physicians and nurses with tools to take away from the session that will assist in establishing a partnership between the clinician and the person who has asthma (and the caregiver, for children) is required for effective asthma management while emphasizing the four components of asthma care which are:

Part 1:

Component 1: Assessing and Monitoring Asthma Severity and Asthma Control

Component 2: Education for a Partnership in Care

Component 3: Control of Environmental Factors and Comorbid Conditions That Affect Asthma

Part 2:

Component 4: Pulmonary Function and Medications

Training Dates & Locations

DHH Region 7: Shreveport (To register: www.asthma-sport.eventbrite.com)

Monday, 3/4/13, (Part 1 and 2) 6 pm Registration, 6:30 – 8:30 pm training, 2.0 hours of CME and nursing credits- Holiday Inn, Downtown, 102 Lake Street, Shreveport, LA 71101. In conjunction with the Northwest Pediatric Society

Tuesday, 3/5/13, (Part 1 Only) 8:00 am – 9:00 am, 1.0 hours of CME and nursing credits- LSUHSC- 1501 Kings Highway Medical School Building, Room 3-405, Shreveport, LA 71103

Continuing Education Credits:

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Louisiana State Medical Society (LSMS) through joint sponsorship of Woman's Foundation, Inc. and (organization name). The Woman's Foundation, Inc. is accredited by Louisiana State Medical Society to provide continuing medical education for physicians. The Woman's Foundation, Inc. takes responsibility for the content, quality, and scientific integrity of this CME activity.

Woman's Foundation, Inc. designates this educational activity for a maximum of (number of credits) AMA PRA Category 1 Credit(s). Physicians should only claim credit commensurate with the extent of their participation in the activity. This continuing nursing education activity was approved by Louisiana State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission of Accreditation.
